Chapter 372 of the Acts of 2022 requires the Commissioner to establish a workgroup to identify options and requirements necessary for the reimbursement of pharmacists who provide medical services within their scope of practice and work setting, and to report to the Senate Finance Committee and the House Health and Government Operations Committee on the Commissioner's findings and recommendations on or before December 31, 2022.

A workgroup has been formed. The members include:

The second meeting of the working group will be on August 8, 2022, at 11:00 a.m. The topics to be discussed are:

- The definition of “Health care provider” in the Social Security Act, and its effect on reimbursement policies.
- Practice settings in which pharmacists provide medical services, and billing challenges for specific practice settings, e.g. billing through a supervisory physician in a medical practice.

The third meeting of the working group will be held on August 22, 2022, at 11:00 a.m. The topics will be credentialing of pharmacists as medical care practitioners and coding and claims filing by pharmacists providing medical services within their scope of practice.

The first meeting was held on June 27, 2022. The purpose of the first meeting was to identify the current barriers that prevent pharmacists from being reimbursed for medical services by health insurers, nonprofit health service plans, health maintenance organizations, and managed care organizations. Barriers identified in the first meeting will be discussed in the following meetings.

The Commissioner hereby invites oral and written comments from interested stakeholders on the definition of “health care provider” and its effect on reimbursement policies and practice settings for pharmacists, and the challenges for specific practice settings.

### **AGENDA**

2. Comments by registered speakers concerning definitions of health care provider. Specifically, is a change required for the Medical Assistance program, and is there a definition of health care provider in the Insurance Article that creates a barrier to payment?
